ENGINEERED FOR LIFE
ENGINEERED FOR PERFORMANCE

Quality.

terra legno welcomes you to the finest precision crafted wood flooring. For centuries wood has proven to be strong and enduring flooring. Introduce terra legno's innovative artisan's craftsmanship, a wood floor becomes luxurious and timeless. Craftsmanship is a commonly forgotten philosophy lost in today's high technology world. terra legno's manufacturing methods combine the old world artisan's passions and time tested wood working methods with today's innovative technologies. The terra legno difference is making the time to slow the design process down a little. Devoting the time to fully understand your design vision enables terra legno to create infinite edgy, contemporary, and traditional color pallets and textures beyond expectations. terra legno's experience and wood working knowledge ensure your masterpiece floor design is nothing short of perfection. Whether the project is residential or a commercial space, terra legno is dedicated to deliver your specified wood flooring on time and in budget.

Engineered Hardwood Flooring Grades

terra legno offers a variety of grades in wood making for a perfect design— transcending design elements from edgy and contemporary to traditional or rustic decors. terra legno's grades of wood range from a Prime Grade's cleaner sleek look to Vintage Grade's natural character looks.

Select Prime:
Slight variations of color in the heartwood to sapwood with sporadic mineral markings which can include small solids (filled knots).

Mixed Select:
Contrasting grain and color in heartwood to sapwood with distinct character markings of small to medium knots (filled) and mineral streaks).

Vintage:
Sharply contrasting grain and color variations in heartwood to sapwood with distinct medium to large knots (filled) and character markings.

Janka Hardness: White Oak 1360, Red Oak 1290, Maple1450, Hickory 1820, American Walnut 1010

Wood Cut Options: Plain Sawn & Live Sawn All Species

Grade: Select & Character

Wood Cut Options White Oak & Red Oak: Plain Sawn, Live Sawn, Quarter Sawn, Rift Sawn, Rift & Quarter Sawn

Wear Layer: 4mm Sawn Faced

Style: Single Planks, Herringbone, Chevron, & architectural parquet patterns.

Plank Widths: 1.5"-12"

Dimensions: Engineered Construction: 5/8 & 3/4" x 1.5 -12" x 2- 10' RL / Avg. Board Length 5'+ (Based on Availability to 2' – 14' RL) **Solid Construction:** ¾" x 1.5" – 9" x 1'-9' RL ABL 5'+

Herringbone & Chevron Patterns: W x 30", 36", 40" & Custom Made to Specifications

Parquet Patterns: Made to Specifications

Engineered Core Construction: 5/8" & ¾" Baltic Birch Multi-ply

Finish: UV-Polyurethane and UV-Oil

Finish Texture Options: Smooth, Wire Brushed, Hand Scraped, Saw-Mill Cuts, Burnt, French Bleed

Prefinished Edge: Micro-Bevel , Full Bevel, Scraped

Unfinished Edges: Straight Edge & Micro Bevel

Core Construction: Multi-ply

INSTALLATION

Methods: Staple / Nail Down, & Glue Assist, Glue & Nail Down, Glue Down, Staple / Nail, Float Refer to terra legno Installation Guidelines

Areas: On Grade, Below Grade & Above Grade. For best results, wood floors installed by a wood flooring Professional equal to an NWFA Certified Installer

WARRANTIES

Lifetime Structural Warranty
35 Year Residential Finish Warranty
5 Year Light Commercial Finish Warranty
3 Year Commercial Finish Warranty

SHADE VARIATION & COLOR CHANGE

Shade Variance: Natural products like wood flooring have inherent color & shade variations. The degree of variation is related to the species and the grading.

Light Sensitivity: Wood flooring is light sensitive. Over time, the color of wood naturally changes when exposed to light. Natural UV light and direct sunlight results in the greatest amount of change. The lighting in the room can affect the color of the wood floor.

Reactive Stains & Light Sensitivity: Wood species with higher tannins, like European White Oak, finished with Reactive Stains inherently have a higher sensitivity to light and color change.

WHY BOARD LENGTHS MAKE A DIFFERENCE IN WOOD FLOORING

The lengths of your wood flooring selected for your project will have a significant impact on the overall look of the floor. Longer plank lengths create a clean visual because there are fewer seams and end joints. Standard select and better grade wood flooring is 1' to 7' board lengths, and the average board length is 30". Some wood floors have a 1-4' lengths with an average 18" average board length. The shorter board lengths have significantly more seams and end joints creating a busier, choppy, patchwork look. We are able to manufacture long board lengths because our lumber is sourced from only high-quality northern timbers which enables us to have full length cuts off the log. One is ensured to have an up-scale high quality luxurious look with the Spectrum's Collection's 2' – 10' board lengths and an average board length of 5' +. Based on species availability, 2-12' RL to 2'-14' RL board lengths may be an option.

Color & Texture Options

SPECTRUM COLOR MATCHING

Spectrum's color matching empowers a design vision with a boundless selection of single color stains and multiple color ceruse stains. Explore the spectrum of color possibilities, from edgy, cool, and contemporary colors, to traditional warm light, or dark color pallets. terra legno's wood working artisans specialize in UV-Polyurethane and Oil finishes to tailor every aspect of the finish with you and your design team. All of Spectrum finishes are CARB compliant and ideal for residential and commercial space.

Custom Made to Order White Stain on Northern White Oak Rift & Quarter Select Grade

Ceruse (Multiple Stains)

SPECTRUM TEXTURE OPTIONS

Texture is key design element in luxury wood flooring. Texture creates depth and captures the natural grains and highlights the character of the species. A wire brushed finish removes the softer grains.. The remaining more dense grains will enhance the wood's grain pattern and creates a more enduring, forgiving finish to the normal wear and tear found in high traffic spaces.

Medium Wire Brushed Texture

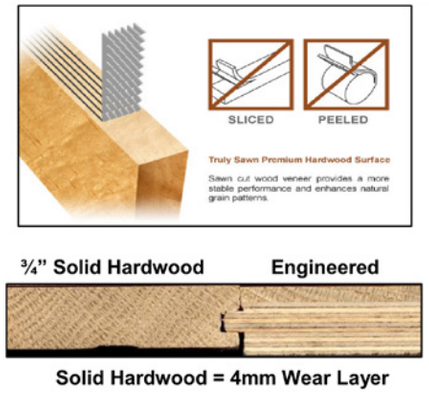

Heavy Wire Brushed Texture

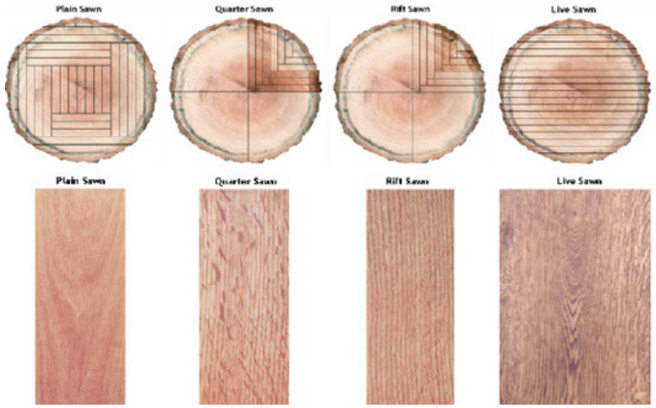

Spectrum Finish & Wear Layers

The Spectrum Collection is custom crafted with only the highest quality raw materials. Spectrum's northern hardwoods are sustainably harvested by arborists who share terra legno's vision and passion for precision crafted wood floors. The Spectrum Collection is designed for style and engineered for strength and performance in residential and commercial spaces.

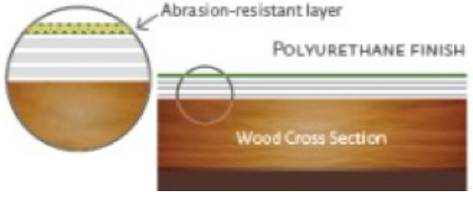

terra legno's Engineered Wood Floor Wear Layers

For your peace of mind and to ensure the enduring performance, terra legno wood floors are manufactured with the highest-quality woods sourced from sustainable managed forests. All the Spectrum Collection's engineered wood flooring is constructed with sawn-faced wear layers. Sawn Faced wear layers are the most durable wear layers, and they have the exact same appearance as solid hardwood floors. terra legno's sawn-faced wear layers can be resanded. Our products are available with wear layers from 3mm to 6mm. A 2.5mm sawn faced wear layer may be resanded two to three times. A solid ¾" hardwood floor has a wear layer equal to approximately 4mm.

terra legno UV-Polyurethane Finish

- terra legno UV-Polyurethane top-coat protects the woods grains from above like a plastic shield
- Matte Finish creates the look of a UV-Oil finish
- CARB Compliant
